## American Ambulance Signs On With ePro Scheduler

DALLAS, TX November 13, 2007 - Florida based EMS operation American Ambulance joins scores of other operations around the nation in signing up for ePro Scheduler, eCore Software's Human Resource Management software suite. American will use the entire suite of software to schedule employee's, manage daily attendance and process weekly payroll using the efficient workflow that has proved successful in many operations. American plans to have the program rolled out and in the hands of employees the by mid January 2008.

Employees can easily access their schedules via the Internet. They can submit requests for time-off, shift pickups, and shift swaps all from the web. ePro BioClocks eliminate common time & attendance recording errors by having employees punch in using their own fingerprints.

### **About eCore Software**

eCore Software Inc. has been a leading provider of HR management solutions to Public Service industry operations like EMS companies, fire departments and police departments since 1998.
