FOR IMMEDIATE RELEASE

ECORE SOFTWARE INC. ANNOUNCES MOBILE APPLICATION

eCore Introduces ePro Mobile to New and Existing Customers

Dallas, TX. (November 12, 2010) – eCore Software Inc., a leading provider of workforce productivity solutions to public service organizations, announces the release of ePro Mobile™, a mobile application that integrates with their online scheduling software, ePro Scheduler™.

eCore's first release of ePro Mobile™ includes several basic user functions. These include tools for allowing employees to: see warnings about approaching expiration dates on certifications, view their current schedule, submit requests for shift pickups, and view schedule rosters. Users are also able to submit feedback that will be collected, reviewed, and considered for the next release.

"A lot of time and energy has gone into this new project," said Director of Operations, Steven Turner. "We are very excited to now offer mobile functionality to our new and existing customers and look forward to expanding functional in future releases."

About eCore Software Inc.

eCore Software Inc. has been a leading provider of web-based software applications since 1998. The company provides record management solutions for public service first responder operations like EMS companies, fire departments, hospitals and police departments.
